

PRIME DIAGNOSTICS LTD

Patient Centred,
Clinically Led
Diagnostic Solutions

Prime Diagnostics Ltd delivers cost effective diagnostics solutions to GPs and Secondary Care Providers. Utilising cutting edge contemporary equipment and modern techniques, we currently deliver Upper GI Endoscopies, Colonoscopies and Flexible Sigmoidoscopies. With a proven track record of success and currently working with 6 PCTs and 3 Acute Trusts, we offer a high quality community service that is based upon the following values;

SAFETY

- The Patient pathway is based upon current NICE and BSG guidelines, ensuring best practice
- Training and accreditation, alongside ongoing auditing procedures ensure harm avoidance to patients
- Community Units utilised currently obtaining A and B scores against the Endoscopy global rating scale (GRS)

PATIENT-CENTRED

- Services are guided by patient preferences, needs and values
- Patients are provided with a choice of provider location and procedure time, as we utilise community hospitals, polyclinics and local NHS Hospital Trusts to carry out our work

EQUITABILITY

- Consistent service provision, regardless of location, demographics or socio-economic status

EFFICIENCY

- Streamlined pathways using standardised referral protocols and Direct Access
- Unnecessary pathway steps are eliminated, providing a cost effective service
- Services are provided at 70% of tariff

PRIME DIAGNOSTICS LTD

Patient Centred,
Clinically Led
Diagnostic Solutions

TIMELY SERVICE PROVISION

- Offering a 6 week diagnostic pathway, our services reduce waiting lists and support delivery of the 18 week patient pathway

EFFECTIVE

- Delivery of evidence-based clinically appropriate procedures
- Avoidance of over and under utilisation of endoscopy services
- Ongoing patient management plans provided to the referring GP

Our patient-driven services, based upon cost efficiency and quality of delivery, ensures that Prime Diagnostic Ltd delivers an exceptional level of patient and commissioner satisfaction.

Make contact with us today to discuss how we can support the delivery of timely, effective endoscopy services to your community.
