

# Words Worth Reading Ltd

April 2013 ISSUE 46

Hi, and welcome to the April edition of the Words Worth Reading Ltd newsletter. With the weather warming up, it finally feels like spring is here. So far this year the Words Worth Reading team have been rushed off their feet in both their UK and French offices, with lots of Information Governance Toolkit submissions.

## A Graduate Fair Could Really Make Your Summer

Yes, it is that time of year again...Time to put the dates of some Graduate Fairs in your diary. Before you plan too much for the summer ahead, it is a great idea to consider what a Graduate Fair can offer you.

Graduate Fairs can really help you to focus on your future. They are great places to find out details of graduate and internship positions, meet graduate employers, many of which accept students from any discipline, fairs can also help you gain invaluable insight for your career path.

Prospects, a great careers website, has listed the dates of all the up and coming fairs in one place so it is easy to find one that is near to you and suits your needs for the future. Just visit their site to find [the fair you are looking for](#).

If you would like to brush up your CV before you go to your local Graduate Fair, [click here](#) to find out about the CV MOT service we offer.

## Results of the CQC NHS Inpatients Survey Are In

This month the CQC have published the results of a survey that looked at the experiences of over 64,500 patients who were admitted to an NHS hospital in 2012.

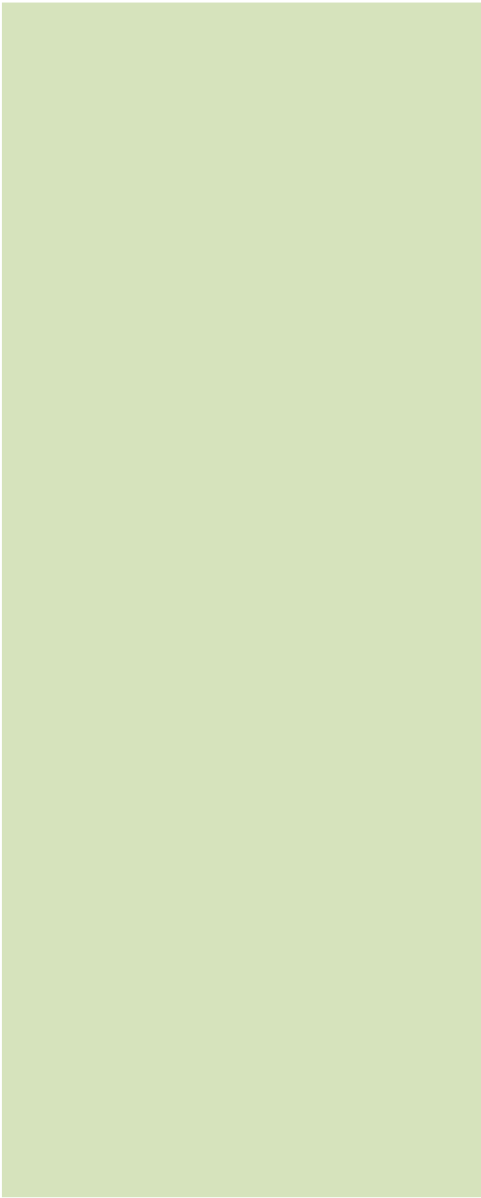

The results show how each trust performed in the survey.

The results tables include comparisons with findings from the 2011 survey and identify statistically significant changes.

The results will be used to inform CQC activities around registering and inspecting health care services.

NHS trusts will use the results to improve their own performance and to understand their patients' experiences.

You can search for your NHS Trust in [the A-Z list](#) on the CQC website.
